FOR IMMEDIATE RELEASE
Orlando, FL

July 1, 2011

BDCOTSRUS, INC. is a 501(c)(3) tax exempt organization and is in the running for a Pepsi Refresh Grant. BDCOTSRUS is a group of volunteers that intends to educate students and demonstrate the ability to construct a 100mpg daily driver. The project is approaching the final stages of development. BDCOTSRUS has used all readily available technologies to create the diesel electric Saturn. The vehicle is based upon classical diesel electric power trains. BDCOTSRUS is looking forward to having this vehicle highway ready by early Fall of 2011.

BDCOTSRUS goal is to educate and demonstrate the value of diesel electric hybrids, and the great level of fuel economy that can be achieved. The Pepsi Refresh Project? Pepsi is funding amazing ideas that refresh the world. Dream it, submit it, get enough votes and we'll help make it happen for your community!

“We can achieve 100mpg in our daily drivers, the concept is not new and has been achieved before. The technology exists and we must educate our society and create interest in science and technology to solve problems.”

About BDCOTSRUS

This is an exciting opportunity to be a part of changing the way we all view, produce, and utilize automobiles. We have all become increasingly aware of the necessity to reduce our consumption of fuel. Increasing the efficiency of our cars is a start.

We have converted a Saturn SL2 into a diesel electric vehicle. Our vehicle uses all commercially available hardware for almost every component. The reliability and robust nature of using mature products will lead to our vehicle being durable and extremely reliable.

BDCOTSRUS is a non profit corporation. We are made up of an all volunteer staff that is committed to the education and further promotion and support for diesel electric use and development in the automotive market.
